SUMMARY

I am a third-year computer science student specializing in software engineering and information systems, currently seeking an internship. I am creative, adaptable, and a team player. My goal is to deepen my knowledge in web and mobile development, as well as artificial intelligence.

PROFESSIONAL EXPERIENCE

Internship - WebVue   **August 2024**

Developed a real-time chat application using React.js Laravel and MySql:
- Implemented group messaging, file sharing, and real-time photo/video capture.
- Integrated WebSockets for real-time communication and notifications.
- Ensured smooth user experience with responsive design and media handling.

Personal Projects   **August 2023 - Ongoing**

- Mobile Chat Application: Developed a real-time chat application.

- Home Delivery Website: Designed a website for online shopping and home delivery.

- Document Exchange Website: Created a document exchange website for students and professors, including a real-time discussion forum (ongoing).

EDUCATION

Bachelor's in Computer Science: Software Engineering and Information Systems   **September 2023 -Present**
